

## Claims

- [c1] A tanning apparatus having a tanning bed 10 comprising:  
at least one ultraviolet ray-generating means 16; and  
a vertically-adjustable leg support 12 adapted to raise the legs 14 of a user  
lying on the tanning bed 10 so as to expose the buttocks of the user to  
ultraviolet rays generated by the ultraviolet ray-generating means 16, the  
ultraviolet ray-generating means 16 being located beneath the leg support 12  
when in a raised position.
- [c2] A tanning apparatus according to claim 1, wherein the ultraviolet ray-generating means 16 and the leg support 12 further provide for tanning of the rectal and genital areas of the user lying on the tanning bed 10.
- [c3] A tanning apparatus according to claim 1, wherein the leg support 12 orients the thighs of the user to be substantially vertical, and orients the lower legs of the user to be substantially horizontal.
- [c4] A tanning apparatus according to claim 1, wherein the tanning bed 10 further comprises means 18 for supporting and raising the upper torso and head of the user.
- [c5] A tanning apparatus according to claim 1, wherein the tanning bed 10 has a surface 19 on which the user lies, the surface 19 being defined by an air mattress.
- [c6] A tanning apparatus comprising a toilet 20 having a bowl 28 defining a rim 36 and a seat 22 above the rim 36, the toilet 20 comprising ultraviolet ray-generating means 26 located so as to expose the buttocks of a user supported by the seat 22 to ultraviolet rays generated by the ultraviolet ray-generating means 26.
- [c7] A tanning apparatus according to claim 6, wherein the ultraviolet ray-generating means 26 further provides for tanning of the rectal and genital areas of the user supported by the seat 22.
- [c8] tanning apparatus according to claim 6, wherein the ultraviolet ray-generating
